Naledi Molefe

Graduate Software Developer

Bloemfontein, South Africa — +27 00 000 0000 — naledi.molefe@email.com
linkedin.com/in/naledimolefe — github.com/naledimolefe

Career Objective

Graduate software developer with applied experience delivering web interfaces, backend APIs, and database-backed features. Brings sound programming fundamentals, a collaborative delivery style, and a disciplined approach to testing. Interested in a software engineering role with room to contribute and grow.

Capabilities

Programming	Python, JavaScript, TypeScript, SQL, HTML, CSS
Development	React, Node.js, Express, Flask, REST APIs
Engineering tools	Git, GitHub Actions, Docker, PostgreSQL, Figma, Jira

Professional Experience

Graduate Software Developer Intern Aug 2025 – Apr 2026
FreeState Digital Labs, Bloemfontein

- Produced React components for a self-service customer portal serving roughly 1,250 active users per month.
- Developed Express routes and PostgreSQL data-access logic for account administration features.
- Expanded Jest test coverage for a central service from 59% to 76% and addressed defects found during release testing.
- Worked in a cross-functional sprint team, contributing to planning, peer reviews, and product demonstrations.

Peer Programming Facilitator Mar 2024 – Nov 2025
University of the Free State, Bloemfontein

- Supported introductory computing students with algorithms, Python programming, and practical debugging methods.
- Prepared coding drills and revision resources for object-oriented programming modules.

Project Portfolio

BookFlow — Service Booking Platform Repository

- Built a booking system using React, Flask, PostgreSQL, and token-based authentication.
- Implemented appointment availability, confirmation emails, and containerised deployment.

UniTrade — Campus Exchange App Repository

- Created a TypeScript web application with search, saved listings, and permission-aware user views.
- Delivered the project in a four-person team using pull requests, tracked issues, and two-week iterations.

Education

BSc Computer Science, University of the Free State 2022 – 2025
Graduated with distinction

Credentials & Involvement

AWS Certified Cloud Practitioner (2025) — Volunteer coding mentor — University hackathon finalist (2024)
