Brenda & Mick's Computer Repairs

Unit 2 (next to the chippy), 44 Old Market Row, Tillingford, TF11 8QP

Computer Repair Person (shop assistant / general fixer)

Reference: REF: none, just ask for Mick

Location:	The shop on Old Market Row, Tillingford
Hours:	Mon–Sat, 9:30ish – 5:00, closed Wednesdays and whenever the football's on
Contract:	Part-time to start (20–30 hrs), could become full-time if you're any good
Pay:	£12.50/hr, cash-in-hand preferred but we can do proper payroll if you insist
Start date:	Whenever suits, really — sooner the better as Mick's knee is playing up

About Us

We're a small family computer repair shop that's been on the Row since 2004. Brenda does the counter and the books, Mick does the repairs, and the cat (DOS) does very little. We fix whatever comes through the door: laptops with tea in them, desktops full of dust, printers that 'just stopped', and phones that grandchildren have 'set up' for their grandparents. Business is steady. Nobody's in a rush.

The Role

Mick's knee isn't what it was, so we're after someone to mind the bench, serve customers, and fix the easy stuff so he doesn't have to. There's no ticket system (there's a notebook), no KPIs, and no uniform (please wear clothes though). If you can reseat RAM, wipe a laptop, and explain to a customer why their 'internet' isn't broken, their router is unplugged, you'll get on fine here.

Key Responsibilities

- Serve customers at the counter, listen patiently to descriptions like 'it makes a noise'
- Diagnose and fix everyday problems: slow laptops, virus clean-ups, Windows updates gone wrong, forgotten passwords
- Do RAM and SSD upgrades, screen replacements (mostly HP and Lenovo), and the odd fan clean
- Set up new laptops and transfer 'the photos and the emails' from old machines
- Ring customers when jobs are done, write it in the notebook, take payment (card machine usually works)
- Keep the bench roughly tidy and don't let DOS sleep on the warm laptops
- Occasionally help carry a desktop out to someone's car

Essential Requirements

- Basic, practical PC/laptop repair skills — no certificates needed, we care if you can actually do it
- Friendly and patient with older customers; able to explain things without jargon or sighing
- Honest and reliable — we're trusting you with the till and Brenda's biscuit tin
- Able to work Saturdays (our busiest day, sadly)
- Local or able to get to Tillingford reliably, as buses are what they are

Desirable (Not Essential)

- Data recovery experience (Mick will teach you his way regardless)
- Phone/tablet screen repairs

- Any memory of Windows XP, which still walks through the door weekly
- Patience for printer problems (there is no qualification for this, only character)

What We Offer

- Tea on tap, Brenda's baking on Fridays, and a very flexible approach to everything else
- Your pick of the 'mystery cable drawer' at Christmas
- No weekend evenings, no on-call, no targets — when the shop's shut, you're done
- Staff discount: mates' rates on repairs and refurbished laptops
- Job security: people will keep spilling tea into laptops forever

How to Apply

Pop into the shop and ask for Mick, or email a CV (or honestly just a note saying what you can fix) to mick@brendaandmicksrepairs-example.co.uk. Interviews are informal and will involve Mick pointing at a broken laptop and saying 'what d'you reckon, then?'

Closing date: No closing date — when we find someone, that's that
