St Aldhelm's Community School

Church Lane, Wexborne, WX14 6HA | www.staldhelms-example.sch.uk

IT Technician & Coding Enrichment Lead

Reference: REF: STA-SUP-2026-012

Location:	St Aldhelm's Community School, Wexborne (on-site)
Department:	Support Staff — IT Services
Reports to:	Business Manager (dotted line to Head of Computing)
Contract:	Permanent, Term-time + 2 weeks (37 hrs/week)
Salary:	NJC Scale 5–6, £26,413 – £29,992 FTE (pro-rata approx. £22,700 – £25,800)
Start date:	November 2026, subject to enhanced DBS check

About Us

St Aldhelm's is a friendly 11–16 community school of 780 pupils serving Wexborne and the surrounding villages. We're proud of our 'Good' Ofsted, our thriving arts and sports programmes, and our small but growing Computing department. Our IT estate is modest but loved: 240 Windows laptops, 90 iPads, 40 Chromebooks, two IT suites, and a server room that the Business Manager describes as 'characterful'.

The Role

This is a hybrid role for someone who enjoys both keeping school IT running and working with young people. Roughly 70% of your time is technician work — first-line support, device imaging, classroom AV and keeping the Wi-Fi alive during mock exams. The other 30% is working with our Head of Computing to support coding in and out of lessons: running our after-school Code Club, helping deliver KS3 programming activities (Scratch and Python), supporting the GCSE Computing group, and running our annual entry into the regional schools' robotics challenge. You do not need to be a qualified teacher — enthusiasm, patience and safeguarding awareness matter more.

Key Responsibilities

- Provide first-line IT support to staff and pupils: laptops, iPads, Chromebooks, projectors, visualisers and printers
- Image, deploy and maintain devices (Intune); manage user accounts in Active Directory / Entra ID
- Support classroom technology in lessons — sometimes live, in front of 30 teenagers, with no warning
- Run the weekly after-school Code Club (approx. 20 pupils, Scratch/Python/Micro:bit)
- Assist the Head of Computing in KS3 programming lessons as a second adult (no solo teaching required)
- Support GCSE Computing students with practical programming tasks during supervised sessions
- Maintain the school's website content and help with the VLE (Google Classroom)
- Prepare and support the school's entry into the regional schools' robotics/coding challenge each spring
- Keep asset registers, licences and the IT risk assessment up to date

Essential Requirements

- Practical IT support experience (school, business or strong home-lab/volunteer background all considered)
- Working knowledge of Windows 11, Microsoft 365, and ideally Intune or similar device management
- Basic programming ability — confident enough in Python and/or Scratch to help 11–14 year olds debug their own code
- Genuine enthusiasm for working with young people and explaining technology clearly
- Understanding of (or willingness to train in) safeguarding, and commitment to following school policies at all times
- Willingness to undergo an enhanced DBS check and barred list check

Desirable (Not Essential)

- Experience in an education setting (as staff, technician, volunteer or teaching assistant)
- Google Workspace / Google Classroom administration
- Raspberry Pi, Micro:bit or LEGO robotics experience
- Network basics (VLANs, switches, Wi-Fi troubleshooting) — our 'characterful' server room will test you
- Interest in gaining further qualifications (e.g. CompTIA, Microsoft Fundamentals, or a TA qualification)

What We Offer

- Term-time working — 13 weeks a year when the school is closed
- Local Government Pension Scheme (employer contribution approx. 20%)
- Free on-site parking, cycle-to-work scheme, and a genuinely lovely staffroom
- Training budget and study time toward agreed qualifications
- The satisfaction of watching a Year 7 make their sprite move for the first time

How to Apply

Please complete the application form at www.staldhelms-example.sch.uk/vacancies (CVs alone are not accepted for safeguarding reasons) and return it to vacancies@staldhelms-example.sch.uk quoting STA-SUP-2026-012. Interviews will include a short practical task and a 10-minute mini-activity with a small group of pupils. St Aldhelm's is committed to safeguarding; this post requires an enhanced DBS check, references and an online search for shortlisted candidates.

Closing date: Friday 25 September 2026, 12:00 noon
