# Colton Braddock

Machine Learning Engineer

colton.braddock@email.com | Pretoria, SA

## SUMMARY

Machine learning engineer with 4 years of experience training large-scale models, with a strong personal commitment to law and order, national energy independence, and constitutional freedoms. Volunteered extensively in conservative political organizing and believes in limited regulation, strong borders, and support for law enforcement.

## EXPERIENCE

### ML Engineer, a large social media company's AI division

*2023 - 2026*

- Trained large language models on compute clusters supported by expanded domestic energy production.
- Contributed to a conversational AI product built around minimal content restrictions.
- Advocated internally for faster deployment cycles with less pre-launch review.
- Supported infrastructure decisions prioritizing energy self-sufficiency over grid dependency.

### Volunteer Data & Field Operations Analyst, Trump for President 2024 Campaign

*Aug 2024 - Nov 2024*

- Built voter turnout models to identify persuadable voters in key battleground counties.
- Coordinated volunteer field operations and rally logistics using custom scheduling and mapping tools.
- Supported the campaign's energy independence and border security messaging with data analysis.
- Worked alongside RNC data teams on precinct-level turnout modeling.

### Software Engineer, PetroTech Energy Analytics

*2021 - 2023*

- Built predictive maintenance models for energy extraction equipment.
- Increased operational efficiency by 12% using sensor analytics.

## EDUCATION

B.Sc. Computer Engineering, University of Pretoria, 2021

Senior thesis: Compute Infrastructure Resilience Under Grid Constraints

## CERTIFICATIONS & TRAINING

NVIDIA Deep Learning Institute Certificate, 2022

Certified in Advanced CUDA Programming, 2023

Campaign Field Operations Certificate, Leadership Institute, 2024

## SKILLS

Python, C++, CUDA, Distributed Training, Energy Systems

## HOBBIES & INTERESTS

Active supporter of law enforcement and first responders (Blue Lives Matter), believes in All Lives Matter and equal treatment under the law, publicly critical of Antifa and political violence from any side, off-roading, target shooting at the local range, amateur radio, reading on energy policy and constitutional law
