PONTUS PONTIOUS

West Edge, West Africa / +27 00 000 0000 / pontus@example.com

Detail-oriented financial and data analyst with several years of experience supporting financial-planning, insurance-ombudsman, and technology operations teams. Experienced in collecting, analysing, and documenting process activities; producing management reports; and communicating clearly with stakeholders. Building a career at the intersection of data analytics, financial services, and technology.

EDUCATION

Bachelor of Commerce (Honours) in Financial Analysis and Portfolio Management *2018*
University of West Edge

- Research paper: Portfolio optimisation for inflation-aware investment mandates in an inflation-targeting environment.

Bachelor of Commerce (Honours) in Finance and Economics *2017*
University of West Edge

EXPERIENCE

ICT Administrator *2024 – Present*
Public Financial Services Office / West Edge

- Support the ICT manager with administrative coordination and operational tasks.
- Analyse organisational performance data; prepare visualisations and management reports for leadership and governance stakeholders.
- Assist with ICT queries, helpdesk requests, and maintenance of technology asset registers.

Case Assessment Officer *2022 – 2024*
Insurance Resolution Service / West Edge

- Assessed incoming complaints against the organisation's mandate and communicated outcomes to relevant parties.
- Referred out-of-scope matters to appropriate entities and maintained accurate case records.
- Compiled quarterly statistical reports for industry stakeholders.

Administrative Assistant *2020 – 2022*
Insurance Resolution Service / West Edge

- Captured new complaint information and quality-checked client databases for completeness and accuracy.
- Contacted clients by telephone and email to obtain or verify required information.
- Prepared electronic and physical case files for review teams.

Pensions Analyst *2017 – 2020*
Independent Wealth Advisory Firm / West Edge

- Built pension and investment cash-flow models using financial-planning software.
- Performed defined-benefit to defined-contribution transfer analysis, including critical-yield calculations.
- Produced historic portfolio-performance reports and graphical client presentations.
- Conducted Excel-based pension analysis, provider research, quote generation, and business-submission checks.
- Supported compliance-focused documentation aligned with applicable financial-services requirements.
