EMILE MOKOENA

Location: Gaborone, Botswana — **Cell**: (+267) 71 234 567 — **Email**: emile.mokoena.demo@example.com — **Links**: Emile Mokoena — LinkedIn

PROFESSIONAL SUMMARY

Cloud Engineer with AWS certifications (SAA & CCP) and Kubernetes and Cloud Native Associate (KCNA). Skilled in AWS cloud services, container orchestration fundamentals, and infrastructure basics. Currently preparing for the AWS Developer – Associate certification.

SKILLS AND TECHNOLOGIES

Cloud Technologies: AWS, Kubernetes, Amazon RDS, EC2, S3, IAM, VPC
Tools: Git, GitHub, HTML, CSS, Docker, Kubernetes
Languages & Platforms: Python, SQL, Power BI, Microsoft Excel
Databases & Reporting: Amazon RDS, SQL Server Management Studio (SSMS), SQL Server Reporting Services (SSRS)

WORK EXPERIENCE

Junior Data Engineer — *Northgate Archive Solutions — Gaborone, Botswana* *October 2024 – December 2024*

- Validated Kalahari Retail Group account opening files against the company's vault and database, ensuring 100% data accuracy, strengthening database integrity and compliance.
- Created M-Files reports for clients such as Metro Bank Botswana, Delta Logistics, and Sunrise Home Loans using Report Builder and SQL Server Management Studio, increasing report clarity by 15%.
- Automated dashboards and reports using Power BI and SQL Server Management Studio to track warehouse capacity, client distribution, and staffing, enhancing data visualization and resulting in a 25% increase in operational efficiency.
- Improved billing processes by 5% by creating a Daily Indexing Report using SQL Server Reporting Services (SSRS).
- Updated records of boxes in an internal archive database at both the box and file level using MS Excel and data indexing, ensuring accurate data management.

Lead Machine Learning Engineer — *Nimbus AI Collective — Gaborone, Botswana (Remote) July 2022 – June 2024*

- Processed and preprocessed over 100 GB of satellite imagery data using Python libraries such as Geopandas, Rasterio and GDAL.
- Re-projected data for 10+ projects from a specialized regional CRS to a standard CRS using ArcGIS.
- Enhanced data preprocessing accuracy by 20% through the utilization of advanced Python libraries.
- Collected data from public environmental registries through web scraping, ensuring the integration of diverse and accurate data sources.
- Conducted data analysis for public transportation networks, leading to a 10% improvement in operational efficiency.

Data Science Intern — *Glacier Analytics — Gaborone, Botswana (Remote)* *October 2022 – January 2023*

- Managed 10+ repositories using Git as version control system, ensuring seamless collaboration and code integrity.

- Conducted EDA over multiple data records of a regional taxi industry dataset to inform strategic investment decisions.
- Provided insights that contributed to a 20% increase in investment returns.

Data Science Intern — *Beacon Foundation — Gaborone, Botswana (Remote)* *October 2022 – October 2022*

- Developed and optimized machine learning classifiers with an accuracy of 85%, enhancing predictive analytics capabilities.
- Performed statistical analysis on data from multiple sources, generating reports that improved decision making process by 25%.
- Conducted data analysis and visualization on datasets, leading to actionable insights that improved business strategies by 20%.

VOLUNTARY AND PART-TIME

Machine Learning Engineer — *Nimbus AI Collective — Gaborone, Botswana (Remote)* *August 2022 – February 2024*

- Led AI Innovation challenges involving data science, machine learning engineering and artificial intelligence, resulting in successful deployments of 3 community driven applications.

CERTIFICATIONS

- AWS Developer – Associate (In Progress)
- AWS Solutions Architect – Associate Credential ID supersecret
- Kubernetes and Cloud Native Associate Credential ID LF-supersecret
- AWS Certified Cloud Practitioner Credential ID supersecret

EDUCATION

- Diploma in Cloud Engineering – AltSchool Africa *July 2026*
- Postgraduate/Professional Diploma in Procurement and Supply – Chartered Institute of Procurement and Supply *November 2025*
- Applied Data Science – WorldQuant University *October 2024*
