Alex Park – Intermediate Software Test Analyst

West Edge, Namibia
Contact Number: 060 000 0000 | Email: alex.Park@example.com

Professional Profile

I am a Certified Software Test Analyst with experience in planning and executing test plans, and documenting and tracking defects throughout all phases of the Software Development Lifecycle.
I am skilled in testing front-end and back-end applications and proficient in using tools such as Playwright and JEST automation testing. I have experience in being assigned as a Test Lead in multiple large end-to-end based projects and training junior test analysts on the testing process and automation.

Key Skills

- Conducting Test Analysis of requirements and generating Test Plans.
- Querying Test Data from various SQL databases.
- Tracking defects, determining route causes and monitoring defect trends.
- Building reports (dashboards) on sprint progress, testing tasks, and risks.
- Automating Test scenarios using various testing tools, and ability to run maintenance on automated tests.
- Creating and reviewing merge requests.
- Communicating with teams in various ceremonies and providing feedback on impact of features.
- Collaborating across teams throughout the end-to-end process.
- Providing training to new recruits on Testing fundamentals.

Education and Qualifications

Tertiary

- ISTQB Foundations of a Test Analyst Certificate: SASTQB
- Bachelor of Commerce – Honours in Management: Cape Atlantic University (CAU)
- Bachelor of Administration in Management and Public Administration (Undergrad): Cape Atlantic University (CAU)

Secondary

- National Senior Certificate: Harbour View High School
